EXPERIENCE

Mern-Stack Developer
Vehware Pvt Ltd – April 2024 – Present

EXPERTISE

- Strong command over React.js, Redux Toolkit, and React Router for building scalable and maintainable single-page applications (SPAs).
- Proficient in Next.js for Server-Side Rendering (SSR), static site generation (SSG), and developing SEO-friendly web applications.
- Experience with modern UI frameworks like Material UI (MUI), Tailwind CSS, and ShadCN UI for building visually appealing and responsive user interfaces.
- Skilled in creating dynamic, interactive, and user-centric components with clean and reusable code.
- Familiarity with Framer Motion for smooth and modern animations.
- Expertise in integrating RESTful APIs and handling complex frontend logic with asynchronous data fetching.
- Proficient in version control using Git and GitHub, and confident in collaborative development using branches and pull requests.
- Deployment experience with platforms like Vercel, Netlify, and Firebase Hosting for production-ready web apps.
- Strong debugging and troubleshooting skills in both development and production environments.
- Basic understanding of backend technologies (Node.js, Express.js) to collaborate effectively with backend teams.
